Parent Note: Ask your child to write the spelling words correctly on the blank lines.

Having your child create simple, silly rhymes will help him or her learn the spellings as well as the meanings of the rhyming words. Write each spelling word on

a card. Ask your child to take a card, read the word, and write a rhyme using that word. Then have him or her circle the words that rhyme. Example: feed

“Come to the window and feed the little birds some seed.”
