Media Words

Dear Family,

As you work with your child, keep in mind how she or he learns best. Some students need to see the word spelled correctly and to *write* the word to determine whether it *looks* right. Other students learn best by repeating the sequence of letters to themselves. Still others seem to learn best by writing the word several times, possibly with different instruments such as pen, pencil, marker, or chalk. Use each of the above-mentioned methods with your child using the spelling list for this unit to determine which one is most helpful to her or him.

Ask your child to write the spelling words correctly on the blank lines.

- | | |
