## Practice

Dear Family,

Ask your child to write the spelling words correctly on the blank lines. As you work with your child to practice this week's spelling words, try the following activity.

**Word Engineer**  
Prepare two sets of index cards with the letters of the alphabet. One set of cards is given to each of two players, who keep the cards face down. The first player forms a word with his or her letters. The following player forms a word that crosses the other word vertically. The words can be formed horizontally or vertically, using at least one of the letters of the words formed by the previous player. The objective is to be the first player to use up all his or her cards.
