How does *Voices 3C eLessons and Leveled Library* support the goals of the Common Core State Standards?

- **Students use close, purposeful reading** to find evidence to support their thinking and deepen their comprehension.
- **Students read increasingly complex texts**—including narrative nonfiction and expository texts, realistic and historical fiction, biographies, folktales, and more—that expand the range, quality, and complexity of their reading.
- **Students improve vocabulary** as they learn word relationships and nuances in word meanings, including academic and domain-specific words.
- **Students develop fluency** as they read text at their independent reading level. Books are leveled by Guided Reading Level and Lexile®.

Easily navigate the Common Core State Standards.

To ensure they are meeting the Standards, teachers can generate on-demand Common Core State Standards reports for each leveled book or produce a list of books from the program that meet specific standards.
